BODY AIR BAG

MOTOAIR™
BODY AIR BAG

People in the world usually overlook that motorcycle is the most dangerous vehicle with high risk of accident. However, motorcycle drivers have no any protection at all, so that many families were shattered by the ignorance. As a result, motorcycle Air-Bag have finally been invented through all the difficulties.

When the motorcycle crashes or is thrown off, the air bag instant inflates, it will develop a protection net to protect the important bodily parts such as chest, belly, cervical vertebrae, vertebrae, lumbar vertebrae, to reduce the injury. (please refer penetration **A B C**)

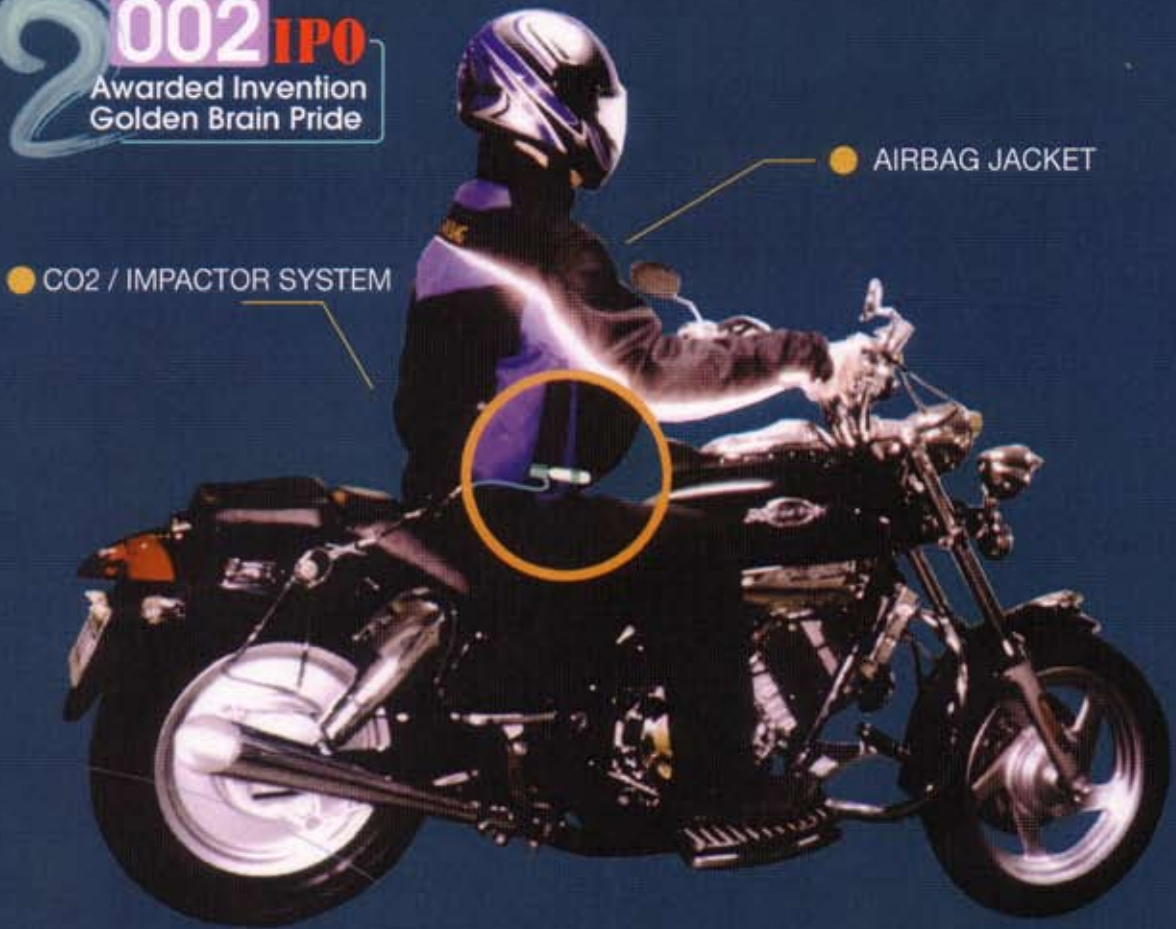

SAFETY & SPEED NEVER COME TO TERMS.
