

MAXX – Series MAXimum Balance – Minimum Price

Denver Instrument launches a new line of portable Compact balances, which sets new standards in this class. The MAXX-series offers high precision up to mg- accuracy and an extensive range of models - all at an unbeatable price. Latest, microprocessor controlled weighing technology guarantees fast and precise results at any time. Also the MAXX-series includes an extensive range of application programs and easy and comfortable handling, e.g. a back lit display. All these features of the new MAXX-Series, at an unrivalled price.
