

Price Crash!!

Advanced Technology – economically priced

Summit | Standard

The new Denver Summit offers advanced technology at affordable prices. Extreme fast measuring times and the increased weighing capacities makes the difference. All Summit-balances are "Made in Germany" – which guarantees superb workmanship. We bring that out in granting 5 years warranty on every Summit balance.

Associates Company: Group of Company:
GWA Analytical Solutions Sdn. Bhd. | Alpha Media Networks Sdn. Bhd.

The applications in detail:

- Counting
- Weighing in Percent
- Net total (Formulation)
- Calculating
- Animal weighing/Averaging
- Totalising
- Density determination
- Mass unit conversion, 22 different mass units are available
- ISO/GLP-conform protocol
- Weighing below the balance
- Short-text-terms in five languages

Specification:

Model Summit-SI	-	SI-234
Readability	-	0.1 mg
Capacity	-	230 g
Pan Size	-	Ø90 mm
Reproducibility	-	0.1 mg
Measuring time	-	2.5 sec

- Extensive Model portfolio
- Practice-related handling
- High valued Equipment
- Quality in every detail
